Document cited in the International Search Report: D1: US 20020016933 A1

The cited document represents the general state of the art.

The invention defined in claims 1-28 is not disclosed by this document.

The cited prior art does not give any indication that would lead a person skilled in the art to the claimed method, system, network element, encapsulator and terminal for transmitting bursts in a communication network.

Therefore, the claimed invention is not obvious to a person skilled in the art.

Accordingly, the invention defined in claims 1-28 is novel and is considered to involve an inventive step. The invention is industrially applicable.
